Installation Guide

MPO Cassettes BASE-12/BASE-24

Series

AFL HYPERSCALE.

U-Series MPO Cassettes BASE-12/BASE-24

Before installing or adjusting this product, please read these instructions carefully.
Please keep this guide for future reference.

Safety Precautions

General Precautions

Personnel must be thoroughly familiarized with all applicable Occupational Health and Safety (OH&S) regulations, local regulations, and your company safety practices and policies.

Warning: To reduce the chance of accidental injury:

Before work begins, all personnel must be thoroughly familiar with the operation of all equipment and procedures to be used during the installation.

Before use, all equipment, especially safety gear, must be inspected and tested for proper operation. Replace and repair as necessary.

Laser Precautions

Warning: The laser light used to transmit information over optical fiber cables can cause severe eye damage. Because this light is invisible, it will not cause the iris of the eye to contract involuntarily as when viewing a bright visible light, and no pain is felt as the retina is burned.

Never look into the end of a fiber or connector which may have a laser coupled to it. Should accidental eye exposure to laser light be suspected, arrange for an eye examination immediately.
